THE CS GUIDE TO

firing up efficiency

COMBUSTION SOLUTIONS

Table of efficiency

3 WHY EFFICIENCY MATTERS
4 SPECIALIZED IN EFFICIENCY
8 ENGINEERING EFFICIENCY
10 You can count on CS
12 COMBUSTION SOLUTIONS
14 Burners
16 *Swirl burner SWB*
17 *Swirl pressure burner SWP*
18 *High temperature burner HTB*
19 *Rotary kiln burner RKB*
20 Combustion chamber systems
21 *Combustion chambers*
21 *Hot gas generators*
22 Injection systems
24 *Ultrasonic nozzles*
25 *JULIP™ – The ultrasonic nozzle*
27 *Pre-mix nozzles*
28 *VARISPRAY ™ atomizing system*
30 *VARIEX™ lance*
32 *OXISPRAY™ & OXIJET™*
33 Valve systems
34 INDUSTRIES WE´RE FIRING UP
36 Refinery
37 *Desulphurisation in the Claus process*
38 *Desulphurisation in the wet gas sulphuric acid* process *(WSA)*
39 *Alkylation – Spent acid regeneration*
40 *Oxygen enrichment*
41 *Cracking Unit – Hot gas generator*
43 *Visbreaker combustion*
44 Petrochemicals
45 *Residue combustion in polymer production*
46 *PSA exhaust gas combustion in H_2 production*
47 *Energy generation through residue combustion*
48 *Offgas combustion in syngas production*
50 Chemical & pharma
51 *Caprolactam/Oleum production, SO_2*
52 *Residue incineration*
56 Metallurgy & Mining
57 *Urban Mining – pyrolysis combustion*
58 *Roaster/smelter conversion*
59 *Leaching – sulphuric acid production*
60 *Low-calorific gas combustion (BFG/coke oven gas)*
62 Pulp & Paper / Viscose
63 *CNCG combustion*
64 *SO_2 production for bleaching processes*
65 *Viscose – sulphuric acid production from H_2S exhaust gases*
66 Fertilizer
66 Phosphate fertilizer production
68 Future industries
69 *Power-to-X-NH3 exhaust gas combustion*
70 *Hydrogen combustion*
71 *NH_3 as fuel*
72 *Synfuel & ReOil – Pyrolysis gas combustion*
74 INNOVATIONS FOR EFFICIENCY
76 Patents and innovations
78 OUR SERVICES FOR YOUR SUCCESS
82 OPTIMIZATION UND RETROFIT
86 Plant Optimization
86 Retrofit
87 Commissioning
87 Training
84 FIRING UP EFFICIENCY
90 Combustion Solutions
